I read that bankers in Indiana are trying to have changes made to our Indiana Do Not Call List law. Being a resident or Indiana and experiencing the change after the Do Not Call List was implemented, it was a long needed change to protecting my privacy and use of my personal phone. I do not need banks or their affilicates calling me for credit cards, loans, etc. When I need those services, I can contact them. Otherwise they are wasting my time and invading my privacy. Please do not make changes that would affect the Indiana Do Not Call List. Thank you for your time.
